Smash Mouth, If You Don't

If you don't
wanna be
like all the rest of them
like all my so called friends
walk with me
stand by me
take what you want from me
get what you feel you need
If it means that much to you,
take it please

CHORUS:
If you don't come
If you don't go
If you think there's something I should know,
you can call and share your misery with me (yeah with me)

Why don't you understand
that my heart's lying in you hands
You squeeze and bleed me dry
I try to live
You want me to die
If it means that much to you
If you think it's something that I should do
Take what you want from me
Get what you need
Take it please

CHORUS

CHORUS x2
