Smash Mouth, You Are My Number One

Hold me down I'm gonna fly straight to heaven Hold me down Dont ever let go I've been around You know I can't stay forever And when I leave I want you to know -

When I'm finally gone, I'm gonna be gone without a trace There's a lot of good times ahead before we're done And on top of this list of things before I leave this place You are my number one, yes you are my number one

Cause you can tell me lies, you know that I'd still believe you (say wha?) Stay right here dont leave from that spot (come right back here my girl) I can't go, you know I'm afraid to leave you Don't you know? you're all that I've got I'm afread if you go you might disappear behind a mist And I'd rather be hung from a tree or shot by a gun And of all of these things that matter here upon my list You are my number one, yes you are my number one

You are my number one (say so) Trying to make it clear (good gosh) Trying to let you know When you're afraid I'm gonna be there...

When I'm finally gone, I'm gonna be gone without a trace There's a lot of good times ahead before we're done And and and on top of this list of things before I leave this place You are my number one Yea you are my number one Whoa baby, said you are my number one You are my number one
