

Smashing Pumpkins, Chewing Gum

Chewing gum
wondering where i've been and what i've done
wondering where i'll go and where i'll run
hide myself away from everyone
chewing gum
doesn't ['does it'] bother you that you're not the one
keeps you up at night in a fear of dream
to count the silver bullet of your misty
it's yours to keep
chewing gum
innocence lost in electric smiles
perfectly cast in desperate clouds ['colds']
loving with under
city lights
with all their {miles}
and all i need
is you
by my side
by my side
by my side
chewing gum
wondering where i've been and what i've done
wondering where i'll go and where i'll run
hide myself away from everyone
chewing gum
got myself a piece of
chewing gum
got myself a piece of
chewing gum
got myself a piece of
chewing gum
got myself a piece of
chewing gum
