Smashing Pumpkins, Spaced

Dad dad

Dad

Dead dead

Dead dead

Dead

Was I ever alive?

Fucking makes you alive in one minute

Solstice

I am solstice filled with mercury

Filled with mercury

Liquid fucked

See right through your heart

See right through your heart

Fuck your heart

I am mercury liquid pure

Hot, alive, déad

Mucked fish eyes

Doors

I was born alive

I'll fucking kill you

I'll beat your soft baby head with my own hand

Careful with that baby

Don't ever say the h word around him

Ashamed

I am ashamed of my name

Say it

I hate the sound of your shit

I think it means no good

It means cheap, liar,

Smart ass piece of shit

Change it to raygun you fuck

Billy the loon

Billy the loon

I am Mars

I am Mars

Billy addly addly addly...

Your name causes shit

While I may be no expert on this reality there is no God

God is hurt

God is cold

Try that once

God is dead

There is not another one

Battle

Cold heart radio

Feedback

The pain

Reoccuring messages of badness

Reoccuring living bad dreams at the vortex of lost souls

Wailing lost souls of shame

We are in one hole

Like a cup of mercury phosphate

Brrr

Showering

Taste my shit you wench

Lifting wailing lost souls who stand a chance

My eyes darkly gazing and wondering

Why why why?

I was born whole

Fractured divided shattered into a billion fragments

A million piece puzzle

A million piece jigsaw puzzle with no face

And no head...
