

Smile, Future Girls

We are the future girls!

Diamonds and castle
Heroes, kings and battles
A world full of shiny stones and pearls

Times are now changing
All of this means nothing
In this crazy universe
Cause we're the future girls

And we move round and round in circles
Round and round again
Cause our mission is the future
And the future never ends

We are the future girls - A whoa-oh-oh!
The future girls - Oh-oh-oh!
We are the future girls - A whoa-oh-oh!
And the future never ends

Space crew recruiters
Data and computers
All part of modern life on earth

Faster and better
Nothing lasts forever
In this crazy universe
Cause we're the future girls

And we move round and round in circles
Round and round again
Cause our mission is the future
And the future never ends!

We are the future girls - A whoa-oh-oh!
The future girls - Oh-oh-oh!
We are the future girls - A whoa-oh-oh!
And the future never ends

We are the future girls - A whoa-oh-oh!
The future girls - Oh-oh-oh!
We are the future girls - A whoa-oh-oh!
And the future never ends!

Round and round in circles
Round and round again
Cause our mission is the future (future~)..

And we move round and round in circles
Round and round again
Cause our mission is the future
And the future never ends

We are the future girls - A whoa-oh-oh!
The future girls - Oh-oh-oh!
We are the future girls - A whoa-oh-oh!
And the future never ends!

We are the future girls!
