

# Smilez And Southstar, Tell Me

(Chorus)

love,hate  
mistakes,  
tell me what you think is going on,  
Debates all day,  
tell me what you think is going on,  
two late,  
heart break,  
tell me what you think is going on,  
whats going on  
whats going on

(Smilez)

and yo me and ms. thang  
we were the perfect team  
we had all the things all them other couples dreamed  
love, trust, good sex, and security  
if you ever felt weak, smilez was your energy  
trips across seas  
showed you the finer things  
no more burger king, it was fine dine cuisine  
and if we never had it  
i dont think it mattered  
we were a class A like Nas and Illmatic  
i was so decieved, i thought we had a thing  
you used to blow my two way up with 1-4-3s  
the I-o-v had me blind i wouldnt have seen  
i trusted my friends, all they were yelling at me  
how could you do me so wrong  
i dont want get gone  
i invested three years ma plus this song  
im so confused  
where to go how do i choose  
i guess to find real love  
i got to pay my dues

(Repeat Chrous)

(Southstar)

it seemed so good  
yo we used to chill in the hood  
you made me feel that tingle in  
my heart like nobody could  
and all along we stood  
when times is hard  
even before all this rap shit made me a star  
when i was working two jobs just to survive  
when i felt like killing my self  
you kept me alive  
what a pair  
me and you we was a match  
different tastes but you know opposites attract  
by my side, held my head and kept me strong  
still trying to figure out where the hell we went wrong  
i did what i can young cat being a man  
stayed whethered the storm when most would have ran  
too much pride, and you know men don't cry  
had to let you go even though it hurt inside  
all by myself, now i had to turn to these rhymes  
it's the only way i know to release my mind

(Repeat Chrous)

(Southstar)

its been a while  
yea you know time goes fast  
let me tell you though, some things still dont pass  
sit back in the pad think, about the times we had  
try not to let it make me sad or make me mad  
im trying to move on with my life  
the wound is healed  
yea im just speaking it real, im ready to feel  
ready to provide for my seed  
a man now, bet you cant believe its me

(Smilez)  
you ruined a good thing  
and all of our dreams  
trying to lock me down a life time in the bing  
monitoring my calls  
piping at mah dogs  
shit, i never really understood the cause  
my friends were your friends  
your friends were my friends  
your dough is my dough  
my dough is my dough  
mono e mono  
we'll foot this weather  
and everybody that been through it, then sing it together  
come on

(Repeat Chorus x3)
