

Smith/Kotzen, White Noise

Late in the evening
I'm watching my feed
I'm filling my eyes with nothing but greed
Up in the morning
My eyes are all red
Turn on the news
Somehow we ain't dead

Yea the frequency cracking
Drives me out of my head
Loosely distracted by all they said
These people wearing balls and chains
While I'm wearing justice change

So can you hear me through the white noise?
Is my message getting through?
Ahhh, yea, yea...
Are you gonna make the right choice?
Time to make up your mind before it happens to you

They wanna close my spirit, kill my joy
Can you hear me through the white noise?
Yea I'm hearing oh
I wanna drink my jack bring back my poise
Is my message getting through?
Yea I hear ya through the white noise

Out in the ether
Somewhere in time
Watching my city
Succumb to the crime
There's revolution
Conspiracy's rife
Take over my dreams
Taking over my life

Can you hear me through the white noise?
Is my message getting through?
Oh I'm hearing you clear
Are you gonna make the right choice?
Time to make up your mind before it happens to you

Oh close my spirit kill my joy
Can you hear me through the white noise?
Yea I'm hearing you well
I wanna drink my jack bring back my poise
Is my message getting through?
Yea yea I can hear ya through the white noise

Ahhhh, can you hear me through the white noise?
Is my message getting through?
Oh are you gonna make the right choice
Time to make up your mind before it happens to you

Oh you wanna close my spirit kill my joy
Can you hear me through the white noise?
Because I'm talking to you
I'm gonna drink my jack bring back my poise
Is my message getting through?
Yea I can hear you through the white noise
