

Smog, Vessel In Vain

I cant be held responsible for the things I say
For I am just a vessel in vain
And I cant be held responsible for the thing I see
For I am just a vessel in vain

No boat out on no ocean
No name there on no hull
And its not a strain at all to remember
Those that Ive left behind
Theyre all standing right here beside me now
And most of them with a smile

My ideals have got me on the run
Towards my connection with everyone
My ideals have got me on the run
Its my connection with everyone

Such free reign
For a vessel in vain
