

Smogus, Nasty

Nothing in the world
nothing's gonna change my way
my vision is my destiny
and you can get the best of me

I'll let you come, make you numb
you're wrapped around my fingers when you come to get some
a world's gonna open when you meet my tongue
same world's getting hot when we get it on

Chorus :

I can't see a reason to commit too what I don't want
I won't make it last but we're breaking all boundries
I just got this feeling deep in me, I just want the fun
I won't make it last but we're breaking all boundries

I am who I am
and I'll be who I'll be
now get it on you turn me on
turn me loose I'll make you come

Come with me, ride with me
I want you right here on the side of me
don't need to run you can hide with me
just stand beside and fight with me

If you want some
then come on at me
If you want some
we'll make it nasty
