

# Smokie, Young Hearts

Ohhh, take my love, fly with me to universe  
Search your soul, baby make your feelings heard  
Ohhh, tears of love, our souvenirs from paradise  
You stole my heart, see the tears in my eyes  
Touch my heart, maybe my dreams come true  
You are the only one, baby what can I do?

Young hearts, feeling stronger every day  
Young hearts, heaven's just a sit away  
If love is just a silly game,  
I don't wanna play this game no more  
And if your love would lose the flame  
I've never felt like this before

Oh, I'll be there  
If you ever want me go  
Take your chance, meet me in another world  
It's town called love  
Babe, it's just a breath away  
Take my hand, baby come and make my day  
Touch my heart, maybe my dreams come true  
You are the only one, baby what can I do?

Young hearts, feeling stronger every day  
Young hearts, heaven's just a sit away  
If love is just a silly game,  
I don't wanna play this game no more  
And if your love would lose the flame  
I've never felt like this before

Young hearts, feeling stronger every day  
Young hearts, heaven's just a sit away  
If love is just a silly game,  
I don't wanna play this game no more  
And if your love would lose the flame  
I've never felt like this before
