Smoking Popes, Gotta Know Right Now

If I told you that I really, really liked you a lot I've wanted to for a long, long time but I never had the guts

[Chorus] I wonder what you would say I just can't go on this way I gotta know right now Today

I call your name from the window of my car as I drive I wanna do something half insane to prove to you that I'm alive

[Chorus]

As I walk by your house for the third time tonight And I stand in your drive way hypnotized by your bedroom light

[Chorus]

I gotta know right now, I gotta know right now [repeat until end of song]
