Smolik Feat. Mika Urbaniak, Om

More than that, I loved this bell, you're the rythm Take controll, what you are , it's your freedom More than that, I loved this bell, you're the rythm, Take controll, what you are, your freedom You sucked our core, I don't love you no more, I thought that things were different, You fucking cared, but now I see the bus, The way it should had been back then was different You've been so high allmighty, don't be so efficient More than that, I loved this bell, you're the rythm, Take controll, what you are, your freedom You sucked our core, I don't love you no more, I thought that things were different, You fucking cared, but now I see the bus, The way it should had been back then was different You've been so high allmighty, don't be so efficient Again!

You sucked our core, I don't love you no more, I thought that things were different, You fucking cared, but now I see the bus, The way it should had been back then was different You've been so high allmighty, don't be so efficient Thinking
