Did you ever let yourself
Fall and lose your faith
Hey take my hand, don't let me wait
Let's take a ride, vanish into world
Close your eyes, be a child
for a while, for a while

Close your eyes, free your life
From inside, all looks fine

Day by day you're on the run, there's no time to stop.
Hey take my hand, don't let me wait
Let's take a ride to vanish into world
Close your eyes, be a child
For a while, for while

Close your eyes, free your life
From inside, all looks fine

Close your eyes
Your eyes

Hey, take my hand, don't let me wait
Let's take a ride to vanish into world
Close your eyes, be a child, for a while, for a while
Hey, take my hand
Don't look back
Do what you please
Give away your pain
Close your eyes
Be a child
For a while, for a while
Close your eyes
