

Smolik / Kev Fox, Move Honey

I like the way that your calling me over
I like the way you run out
I like the way that you burden my shoulders
While you are running your mouth

What's your move honey?
What's your move honey?

I like the way that your calling in favors
Every single day in this week
I like the way that you kissed all the sailors
While i lay awake in your sleep

What's your move honey?
What's your move honey?

I am only hoping thet will never know
I am only hoping thet will never know

So what you got?
Come on!
