

# Smoother, French Cigarettes

French cigarettes will never kill me (X4)

She's giving me good vibrations (X2)

Let's get carried away

The moon is full

And the drinks cool

Everybody's wound

I am falling for you

Jack came up from Arizona

Brought some friends

But they drank Corona

Something's wrong with the marijuana

We all got trapped inside the sauna

She's giving me good vibrations (X2)

(X2) Let's get carried away

The moon is full

And the drinks cool

Everybody's wound

I am falling for you

French cigarettes will.....(X3)

(X2) Let's get carried away

The moon is full

And the drinks cool

Everybody's wound

I am falling for you
