

Smoother, Happy If It Kills Me

I think about you all the time
I'll drink to that, here's to you
Take a valium anytime
Take two if you think you need to
You're every world to me
Every world to me

I think about you all the time
I'll drink to that, here's to you
Move your hand, give me a sign
I'll wake you up if I need to

You're every world to me
You'll make it happy if it kills you
(You're every world to me)
I wonder when this kicks in

I think about you, I am fine
Take this here it will help you
I vaguely stare into your mind
Another ??? should keep you

You're every world to me
Make it happy if it kills you
You're every world to me
Your love is a bottle and it thrills me

Come kiss my wings
Please take me home
My eyes are closed

I think about you all the time
I'll drink to that here's to you
Take a valium anytime
Take two if you think you need to

(X2) You're every world to me
Make it happy if it kills you
You're every world to me
Your love is a bottle and it thrills me
