

# SNAFU, I Don't Care

I am saying "no" obedience  
I am saying "no" monotony  
Now I want to experience real life  
And I screw all that happened before.

Chorus

I don't care what people will say.  
I don't care what they'll think about me.  
I screw it and I will do what I want.  
I want to be free from  
Everything that limits my freedom.  
I want only to have fun  
And take everything what brings the future.  
So Fuck the right way.  
Fuck this. I'm screw it.

Chorus

I've got nothing to lose.  
I fuck orders and I don't want to waste my time.  
Everything crushes me,  
But I only wanna to be free.

Chorus

I don't care what people will say.  
I don't care what they'll think about me.  
Now I will do what I want  
And nobody will disturb me.
