

SNAFU, I'm So Bored

I'm bored with doing the same things every fucking day.
I'm bored with learning stupid rules about nothing that I should know.
I'm bored with being nice, quiet, calm and cultural.
I'm bored with doing the same things again...
I'm so fucking bored
And I don't want to work
What should I do?
I'm bored with everything.

Verse 2

I'm bored with listening what I've done bad and what I should have done right.
I can't stand their fucking voice which always tries to demean me.
I'm bored because nothing's happening around me.
Everywhere and everytime is the same monotony.

Chorus

I'm so fucking bored.
Let's do something against the boredom.
I'm bored with sticking to the rules.
I'm bored with everything.
We sometimes go to the fast-food bar.
We sometimes go for a hedgecore.
We've got no destination
And no fucking high reputation.
