

# Snakehips, Summer Fade (ft. Anna of the North)

watch the summer fade away  
watch the summer fade away  
if you find somebody  
baby I don't wanna know  
if you love somebody  
never let  
never let them go

what you gonna do  
where you gonna go  
when nothing gets you in the mood  
I know I should be smiling while the sun is shining  
everybody's feeling good  
I need some times  
you need some times  
and times all we fo to lose  
I don't think I can take i

if you find somebody  
baby I don't wanna know  
if you love somebody  
never let  
never let them go

what you gonna do  
where you gonna go  
when nothing gets you in the mood

watch the summer fade away  
I need some times  
you need some times  
and times all we fo to lose  
I don't think I can take i

if you find somebody  
baby I don't wanna know  
if you love somebody  
never let  
never let them go  
if you find somebody  
baby I don't wanna know  
if you love somebody  
never let  
never let them go
