

# Snakepit, Lower

(Slash/Matt Sorum/Eric Dover)

Lower than the bottom  
Swallowed by the ride  
Floating in the bathtub  
Children play outside

So tell me hw to do it  
How to do what I'm gonna do  
How to take the kife  
From inside of you  
Baby, now you're lower too

You looked so unhappy  
Squatting in some stall  
And it gets even better  
When all the lights are off

So tell me how to do it  
How to do what I'm gonna do  
How to keep the life inside of you  
Baby, now you're lower too

What were you really thinking  
What did you need  
Cause all those wounds forever bleed

Drink me  
It's a nightmare  
It's the needle in your veins

So tell me how to do it  
How to do what I'm gonna do  
How to keep the knife  
From inside of you  
Baby, now you're lower too

So tell me how to do it  
How to do what I'm gonna do  
How to keep the life inside of you  
Baby, now you're lower too

Burning every memory  
It's gonna eat your insides out and  
throw it out on me  
Struggling, heaven help you  
Staring down the barrel  
of you own gun  
And now you're lower too
