

Snitch, Untitled

they say life is hard i'll
be ok i'll be alright
if you stay by my side
don't you ever doubt me
you can always count on me
i would not lie to you

all for you
things i do
all ok
if you stay

whenever i'm with you
even if i'm low
you make me smile and i'm alright
whenever i'm far away
i think about you every day
there's not much more i can say

and i'd never find
anyone like you again in my life
and please don't ever leave
i know we can make it through anything

out of the darkness into the light
i know we can make it in this life

everybody likes to say
that nothing lasts forever
now i know it can we're together
never want to go back now i'm here
