

Snog, I Do Know Now

I trusted you just like the rising sun
The earth and stars held together as one
This spinning ball, this ground, well that's just a lie
And I, I
Didn't know then what I do
I do know now

These flames cascade, the sky is a boiling red
Waters are lappin' way over my head
I reach for you, silence is all around
And I, I
Didn't know then what I do
I do know now

And I, I
Didn't know then what I do
I do know now

I trusted you just like the rising sun
The earth and stars held together as one
This spinning ball, this ground, well that's just a lie
And I, I
Didn't know then what I do
I do know now
