

# Snoop Dogg, Ups & Downs

(feat. The Bee Gees)

[ad-lib]

Every dog has his day  
Another thirty nine inch thick classic (yeah,yeah,yeah,yeah)  
Girl, as i sit here thinking to myself  
There is no one for you but me, and i mean that  
And i think about all the things we've been through  
Like arguing and fighting for example  
You know the love we have for each other  
It tends to out weigh what do to another  
Ya know my granddaddy use to always say  
Ya know he used to say it like this

[chorus]

There will be, ups and downs, smiles and frowns  
Share with me, fairy tales or make believe  
There will be, ups and downs, smiles and frowns  
Share with me, fairy tales or make believe  
There will be, ups and downs, smiles and frowns  
Share with me, fairy tales or make believe

[verse]

What up motherfuckers? this is snoop dogg  
Im trying to figure out how the fuck im gonna do y'all  
Hanging with my homie from the turf, thats young q-ball  
Giving me the word from the street, heres the scoop y'all  
The niggaz from the eastsidaz split up (split up)  
And one of 'em tried to fuck yo' shit up (what?)  
Naw cuz, dont believe that, thats my nigga for life  
Im out with the bullshit, im in wuth the real shit  
Im at the church doing work, spittin game from the pulpit  
Now thats the bidness, and god is my witness  
L-B-C-2-1-3 hell yeah, we in this  
Its so relentless, and all my dogs up against the life sentence  
I love y'all, like i love no bitch, and thats real shit  
Or some CRIP shit, homie dig this

[chorus]

There will be,ups and downs, smiles and frowns  
Share with me, fairy tales or make believe  
There will be,ups and downs,smiles and frowns  
Share with me, fairy tales or make believe  
There will be,ups and downs, smiles and frowns  
Share with me, fairy tales or make believe

[verse]

I used to have a lot broads that i doont fool with  
I used to have a lot of homeboys i aint cool with  
A lotpeople that a nigga used to go to school with  
Happy as hell to see the big dog doin it  
But what none of them would believe though (what?)  
That i would be bigger the kurtis blow  
I guess he was right, these are the breaks  
Despite my mistakes and aches, im gettin' cake  
To realize your fate through faith, (through faith)  
Cause we all gonna get that day (for what)  
To see if our lives was straight  
And to see if we gonna walk through thosse pearly gates (yeah?)  
To see the man upstairs, on some real talk homie  
I'm tired of being stuck here  
If i could i would fly to the moon (zoom)  
Y'all probably think im trippin off deeze mushrooms (i know)

[chorus]

There will be, ups and downs, smiles and frowns  
Share with me, fairy tales or make believe  
There will be, ups and downs, smiles and frowns  
Share with me, fairy tales or make believe  
There will be, ups and downs,  
Smiles and frowns  
Share with me, fairy tales or make believe

Now as i think back to the words my granddaddy used to say  
I never seen him in church, but he always had the word  
He would always tell me! sometimes you gotta take the good with the bad  
You gotta do bad in order to do good
