

# Snot, Stoopid

Spray the masses with gunfire  
Foreign pigs will live in fear  
They never learn  
Light the match  
Flames burn higher  
I need to exterminate the queers  
My stomach turns  
Would not heed your worthless cries  
Strike with fear  
Cause I won't wait  
Your misery  
Stick your fingers in my eyes  
Just like somebody blind by hate They cannot see

Prompted from my own self doubt  
I need to hate them because they're strange  
They never learn  
I have plucked my own eyes out  
I live a life that's ruled by rage  
My stomach turns  
Powered by elders lies  
Strike with fear  
Cause I won't wait  
Your misery  
Stick your fingers in my eyes  
Just like somebody blind by hate  
No they cannot see

Spray the masses with gunfire  
Foreign pigs will live in fear  
They never learn  
Light the match  
Flames burn higher  
I need to exterminate the queers  
My stomach turns  
Would not heed your worthless cries because  
Strike with fear  
Cause I won't wait  
Your misery  
Stick your fingers in my eyes  
Just like somebody blind by hate They cannot see

Just like somebody blind by  
Just like somebody blind by hate  
They cannot see

I see somebody blind by  
No, no, no, you cannot

Just like somebody blind by  
Just like somebody blind by  
Just like somebody blind by hate  
They cannot see

Just like somebody blind by hate  
You know they  
You know they  
You know they  
You know they cannot see

Just like somebody blind by  
Just like somebody blind by  
Just like somebody blind by hate  
They cannot see

Just like somebody blind by  
Just like somebody blind by  
Just like somebody blind by hate  
Because you blind  
No, no because you blind

If you'd open your eyes  
Then maybe you could see  
A figment of closed minds  
You know education is the key  
Hate sparks will create fire  
I see you're STOOPID blind  
I know you cannot see

Prompted from my own self doubt  
I need to hate them because they're strange  
They never learn  
I have plucked my own eyes out  
(Say WHAT?!)  
I live a life that's ruled by rage  
My stomach turns  
Powered by elders lies  
Strike with fear  
Cause I won't wait  
Your misery  
Stick your fingers in my eyes  
Just like somebody blind by hate

No they cannot see
