

# Snow Patrol feat. Martha Wainwright, Black And Blue

Blood-red lips like soft intentions  
Kiss my eyes, they're black and blue.  
Even if I shouldn't be here  
I cannot help myself with you.  
There's something that I should have said:  
We won't get a second chance.  
Just one night is all we'll spend  
Together and it's killing me.

She r-e-e-e-e...

She rescues me. (x15)
