

# Snow Patrol feat. Martha Wainwright, Favourite Friend

You're my favourite friend  
And I adore you  
Love you to the end  
No one hears a word you say

You're my favourite friend  
We rule the world together  
With our secret codes  
And plans we can't remember

From now on, must be strong  
My favourite friend

You're my favourite friend  
When I need you  
And when I don't as well  
Of course you miss me being around

You're my favourite friend  
But I'm older now  
I can't pretend  
I can't see you anymore
