

Snow Patrol feat. Martha Wainwright, Mahogany

I could help myself to something
Like a little bit of revelation
You could be the one to help me help myself

Maybe if I could see exactly what
Was in your way I'd move it for you
Don't always need to do it by yourself

I'm not trying to find a way to get in your bed
I'll just sing for you
Until you fall asleep then I will go

I never understood how you should feel
you've been left out I'd never do that
it's all in your imagination dear.
