

# Snow Patrol feat. Martha Wainwright, Wow

Looks like you're scared of anything at all  
Everything we have is all we need  
All the spotlights streaming into angry skies  
Means there's no one watching as we leave

Say the first thing that comes into your head when you see me  
If it looks like it works and it feels like works then it works  
With the sun on your face all these worries will soon disappear yeah  
Just follow me now, just follow me now

I find careful patterns in the snow  
Seems you did come around but changed your mind  
If you just take 10 more steps to me  
I won't ever ask you again

Just because I couldn't say doesn't make me a liar  
Noticed a changed in the tone of your voice it's so clear  
My role in this mess is not something I can be proud of  
But it's all gonna change, yes it's all going to change  
(all gonna change yes it's all going to change  
all gonna change yes it's all going to change)

Say the first thing that comes into your head when you see me  
If it looks like it works and it feels like works then it works  
With the sun on your face all these worries will soon disappear, yeah  
Just follow me now, just follow me now
