

Snow Patrol, Steal

It's not something
I need,
To explain again, I,
I won't be caught inside this time.
You can't just leave me,
Having,
Done the hard work, when I,
I don't want anything from here.

Stop your stalling,
And just give me more than you should,
Before we're all in
The same mess I knew we would;
I will not call you,
'Cos I know he'll answer the phone;
There's something stunning
About the way we lie till it's gone.

All I want is one more
Hour with you, it's all I
Ever wanted out of this.
I only did it so I,
I would be near you, I have
Never done something like this.

Stop your stalling,
And just give me more than you should,
Before we're all in
The same mess I knew we would;
I will not call you,
'Cos I know he'll answer the phone;
There's something stunning
About the way we lie till it's gone.
