

# Snow, Thats My Life

I used to sit and wish for all this stuff before  
Now I got it & don't want the shit no more  
Never had a girlfriend when I was living poor  
So who the hell are these women knocking at my door

I'm through with these so called friends of mine  
Cause no one was around when I was doing time  
No one ever called or send a dime  
None of these fakes drop me a line

Snow will survive this f\*\*ked-up game  
I'll live to see my enemies bow in shame

Cause that's my life

First I got the money  
Then I get the drama  
Tired of the hating  
Be careful of the karma  
Then I got the baby  
Never loved the mamma  
Screw them all the haters  
I don't need the trauma

It's always about me doing for you  
What you don't think I got problems too

Never see you when I'm broke and need a few  
But you always find me when your rent is due

Sit back shut your mouth I got something to say  
Everything I used to do I'm gonna change today  
Why you only call me when you need my car  
I've given too much been pushed too far  
Can't figure out whose being real  
Screw y'all fools  
That's the way I feel

Cause that's my life

First I got the money  
Then I get the drama  
Tired of the hating  
Be careful of the karma  
Then I got the baby  
Never loved the mamma  
Screw them all the haters  
I don't need the trauma
