

# Snubnose, In The Desert

Oh God, You are my God  
earnestly I do seek you  
my soul thirsts for You  
my body longs for You  
on a dry and weary ground  
where no water can be found  
I reach out for You  
the refreshing source

cause I believe Your love can quench my thirst for life  
my lips will glorify You - the maker of all  
I'll praise you Holy Father until the day I die  
and in Your name I'll lift my hands up high

oh God when the sun goes down  
I'll remember You  
and I think of You  
through the watches of the night  
in the shadows of Your wings  
because You are my help God  
my soul clings to You  
Your right hand holds me up

cause I believe Your love can quench my thirst for life  
my lips will glorify You - the maker of all  
I'll praise you Holy Father until the day I die  
and in Your name I'll lift my hands up high

my lips will glorify You  
I'll lift my hands up high so high  
in Your name I'll praise You Lord until I die

help me, help me to hold on, to hold on  
help me, help me to hold on, to hold on

oh God when the sun goes down  
I'll remember You  
and I think of You  
earnestly I do seek You  
in the shadows of Your wings  
through the watches of the night  
God - my soul clings to You

cause I believe Your love can quench my thirst for life  
my lips will glorify You - the maker of all  
I'll praise you Holy Father until the day I die  
and in Your name I'll lift my hands up high

my lips will glorify You  
I'll lift my hands up high so high  
in Your name I'll praise You Lord until I die

my lips will glorify You  
I'll lift my hands up high so high  
in Your name I'll praise You Lord until I die

help me, help me to hold on, to hold on  
help me, help me to hold on, to hold on

oh God...
