

# Snuff, Coming Through

There aint no high & dry  
There aint no blameless exit  
Best place where you like it  
You'll find it where you left it  
Nice try but no cigar  
Then the black box kicked in  
& someone shouted  
"Get us out of here"  
Cant somebody unravel  
this nonsense  
Someone else shouted  
"Get us out of here"  
Cant somebody unravel  
this nonsense

Everyone was shouting  
"Get us out of here"  
Cant somebody unravel  
this nonsense  
it was up or out or out of the way  
Cant somebody unravel  
this nonsense now  
Cant somebody turn off  
this fucking headache

You decide  
You decide  
You decide

Heave away  
There aint no high & dry  
There aint no blameless exit  
Best place where you like it  
Then the black box kicked in  
& someone shouted  
"Get us out of here"  
Cant somebody unravel  
this nonsense  
Someone else shouted  
"Get us out of here"  
Cant somebody unravel  
this nonsense

Everyone was shouting  
"Get us out of here"  
Cant somebody unravel  
this nonsense  
it was up or out or out of the way  
Cant somebody unravel  
this nonsense now  
Cant somebody turn off  
this fucking headache

You decide  
You decide  
You decide  
Heave away

Get up get out or  
get out of the way
