

# Snuff, Defeat

Your eyes fall  
You're staring at your shoes again  
Head bowed through a view of the nonsense  
A losing streak just left you sitting staring through space  
Summer's gone & all the leaves have fallen  
On & on the only one to know

Withdrawn  
Staring at your shoes again  
Same piece of carpet same losing streak  
A losing streak just left you sitting staring through space  
Summer's gone & all the leaves have fallen  
On & on the only one to know

The winter wind blows colder now  
The wind blows colder than it's ever blown  
Left you sitting staring into space  
Summer's gone & all the leaves have fallen  
On & on the only one to know

Withdrawn  
Staring at your shoes again  
Same piece of carpet same losing streak  
A losing streak just left you sitting staring through space  
Left you sitting staring alone  
Your thoughts a thousand miles away  
On & on the only one to know
