

Snuff, G To D (Gone To The Dogs)

Would anybody care to elaborate
Would anyone care to point out what's going on
It's bothered me all afternoon
Wrote it down but it seems wrong

A vicious circle turning
Would anyone care to re-write this song
It's bothered me off & on for all these years
You could guess but you'd be wrong

Oh yes it's all there happening
Right there happening under your nose
Something so huge, such a monument
Must be staring down on you

Would anybody care to elaborate
Would anyone care to point out what's going on
It's bothered me off & on for all these years
You could guess but you'd be wrong
