

Snuff, Salad

Whos going to take their chances
Whos going to make it pay

Reminded in the strangest place
A long forgotten melody
A scent that drags me back
& rakes up long forgotten memories
Learn the lesson, learn the taste
Keep a tally hone the method
To make it work
To make it right

Whos going to take their chances
Whos going to make it pay
Whos going to take their chances
Whos going to pave the pay

You dont want to say you need to
You dont really think you have to
Keep a tally, learn the lesson
Learn the taste & hone the method
Given heart
Given all its got
You'll take your chances
or know its lost
