

# Snuff, To Disappoint

Staring back through the falls  
Staring back through the debris  
Staring backwards for miles  
Slowly watching you disappoint  
You can take a heart with it  
You can take a heart with it  
You can take a heart with it  
You can take a heart with it  
Staring straight through a heart  
Staring straight through the city  
Staring backwards for miles  
Slowly watching you disappoint

You can take a heart with it  
You can take a heart  
To a point that  
distance couldn't judge  
The likes of which you'll never meet  
Wipe the dust of 40 years  
Walk back through the fossil trees  
To disappoint & reappear  
Raise the Guinness, raise the cheer  
But who needs proof?  
Let the boat sail

To disappoint
