

So They Say, Drink Of Poison

Dressed to kill this thrill will be the end
Save your side of the story
It's just so annoying
There's pictures in my head I can't give back

'Cause you had to be the life of the party
And will you not know what to say
To the boy who gets your heart someday
And you're used body

[Chorus]
With this drink of poison
You'll choke (but my bleeding heart will ruin it all!)
'cause I know history will repeat itself

O.K you got me now I must confess
This humbling experience has broughten me bliss
So many things are just best left unsaid
'Cause you're such a liar, You're such a good liar

And will you not know what to say
To the boy who gets your heart someday
And you're used body

[Chorus x2]
