

Soccx, Bye bye baby

Chorus

Bye bye Baby

Soccx gonna move ya

And all your friends

You can move if you wanna just sit back

And watch us from our distance

Bye bye Baby

Soccx gonna move ya

And all your friends

You can move if you wanna just sit back

And watch us from our distance

Verse 1

It doesn't matter if you just came in

It doesn't matter if you just start to this move

Come on make your way to the dance floor

(Don't hesitate what you're waiting for?)

Hey baby, I like your way (your way)

Your way, uh, makes me wanna stay

And see what's he gonna be

For the rest of the evening come surprise me

Bridge

'cause I feel it comin' over me

All in my chest and into my bones

I think I'm gonna dance all night long

Chorus

Bye bye Baby

Soccx gonna move ya

And all your friends

You can move if you wanna just sit back

And watch us from our distance

Bye bye Baby

Soccx gonna move ya

And all your friends

You can move if you wanna just sit back

And watch us from our distance

Verse 2

If you like what you hear then move

Don't be ashamed to do what you do

Baby just twistin' there's no resistin'

(Only you is the one that's missin')

You can sway from side to side

You won't know if you don't try

Come on boy and make up your mind

And let me dance with you all through the night

Bridge

'cause I feel it comin' over me

All in my chest and into my bones

I think I'm gonna dance all night long

Chorus

Bye bye Baby

Soccx gonna move ya

And all your friends

You can move if you wanna just sit back

And watch us from our distance

Bye bye Baby

Soccx gonna move ya

And all your friends

You can move if you wanna just sit back

And watch us from our distance

Oh, come on dance with me (Oh, come dance)

Oh, come on dance with me

Oh, come on dance with me

Come and dance with me, yeah

Oh, come on dance with me (Hey!)

Oh, come on dance with me (uuh)
Oh, come on dance with me
