

# Social Burn, Feel Free

Seems like all my time has been wasted  
Anticipating your return  
But if I could look back I'd probably just waste it again  
For you  
But you come and you go  
Like the cold wind blows  
And you expect me to treat you like a queen  
But I have to come clean  
This is not how it goes  
This is my life it's not your dream anymore

So feel free to let me wander  
So feel free cuz i'll go under for u  
It's not me but its my problem  
So feel free so feel free to feel for me

So many times have I called  
So many times you've ignored  
Why can't I see the way that you are  
But I've seen birds in the trees  
Thinking just like me  
'Cuz they can't fly away from everything  
Like you do

So feel free to let me wander  
So feel free cuz i'll go under for u  
It's not me but its my problem  
So feel free so feel free to feel for me

So feel free.....(X6)
