

Social Burn, Feel Free

Seems like all my time has been wasted
Anticipating your return
But if I could look back I'd probably just waste it again
For you
But you come and you go
Like the cold wind blows
And you expect me to treat you like a queen
But I have to come clean
This is not how it goes
This is my life it's not your dream anymore

So feel free to let me wander
So feel free cuz i'll go under for u
It's not me but its my problem
So feel free so feel free to feel for me

So many times have I called
So many times you've ignored
Why can't I see the way that you are
But I've seen birds in the trees
Thinking just like me
'Cuz they can't fly away from everything
Like you do

So feel free to let me wander
So feel free cuz i'll go under for u
It's not me but its my problem
So feel free so feel free to feel for me

So feel free.....(X6)
