## Social Burn, Stacy

She'll take you down She'll spin you round She'll make your head explode Like no one else in town will

But turn your back She'll walk away She'll make you Want to stay Like no one else in town will

Watch out your head will explode Watch out your head will explode Watch out your head will explode

She'll get you drunk She'll make you drive She'll make you want to stay alive Like no one else in town will

She'll smoke you out She'll get you high She'll make you want to die Like no one else in town will
