

# Social Code, Monday Morning

Feel only broken legs and razor blades  
No subtleties to stimulate my body is numb I need a strong drink  
And Ive followed down the hole  
And Ive followed down the hole

Because we won't be caught in it  
Yeah we won't be caught in it  
Yeah, we've made it this far  
And barely faded at all

Thought about it, the big leap the big cheat  
Rocks will hold me down until I drown  
The whole time screaming  
And Ive followed down the hole  
And Ive followed down the hole

Because we won't be caught in it  
Yeah we wont be caught in it  
Yeah, we've made it this far  
Barely faded at all

Monday morning well be bugging out

Let's run away and not get found and leave this town  
No more worries just you and me  
Well go get lost and stay that way  
And Ive followed down the hole  
And Ive followed down the hole  
Because we wont be caught in it  
Yeah we won't be caught in it  
Yeah, we've made it this far  
And barely faded at all

Because we wont be caught in it  
Yeah we won't be caught in it  
Yeah, we've made it this far  
And barely faded at all
