

Social Code, No One To Save

Someone, help me
I'm swimming in the crowd and I want out
I know you can hear me
Just throw me in a line
I can pull myself out

(Chorus)
Climbing up the ladder
Help me I'm not a long way down
Climbing up the ladder
I'm so scared that I'm gonna drown
I can't keep my head above the water
Can't keep my head above

When I'm out on my own
I'll see you standing there with your feet wet
If you think that I'll help you
I'll give you back the knife that you stuck in my back

(Chorus)
Climbing up the ladder
Help me I'm not a long way down
Climbing up the ladder
I'm so scared that I'm gonna drown
I can't keep my head above the water
Can't keep my head above

You turned away and left me for dead
I'm no one to save
You'll see one day

You turned away and left me for dead
I'm no one to save
You'll see one day

(Chorus)
Climbing up the ladder
Help me I'm not a long way down
Climbing up the ladder
I'm so scared that I'm gonna drown
I can't keep my head above the water

You turned away
You turned away

left me for dead
left me for dead
left me for.....
left me for dead

You turned away
