

Social Distortion, All The Answers

1,2,3,4,5,6,7,

You won't see these kids in heaven
Colored hair and funny clothes
They are the menace of today
And they won't listen to what you say
But don't forget that they're your future

[Chorus:]

They're loud, they're obnoxious and proud
They are conscious
But don't forget that they're your future
They're loud, they're obnoxious they're proud
They are conscious

But don't forget that they're your future
These kids are accused for all the violence
You can't even keep them silent
You thought you had all the answers
You won't be able to make them pay
Cause they're not gonna fade away
Don't forget that they're your future

[Chorus]

Don't forget they're your future
And you thought you had all the answers
