

Social Distortion, Another State Of Mind

Well I'm in another state, another state of mind,
I wish that I could be there right next to her
This road leads to this, this one leads to that,
Her voice sends shivers down my spine.

[Chorus:]

These scars in my flesh,
I'm bruised and I'm bloodied
Only she know the pain that I've been thru.

Talk to her a thousand miles away,
There's tears in her eyes.
If I make it back I'm gonna show her,
She's the one for me - - -
Hitch a ride on the wild side,
It's real hell on wheels.
There's gonna be a fight tonite, I know.
Another city we can't find,
Another city left buried behind.
As I picture her, the cities burn away.

[Chorus]
