

Social Distortion, Bye Bye Baby

I believed I was wrong but baby
Now I know, you and your evil
Ways gotta go. Take the key and
Break away these chains of love,
And I'll thank the good Lord above.
The radio's playin' a sad song...

"Bye Bye Baby."

Well, maybe the others will
Believe your lies, you can tell
Those schoolboys your alibis.
And baby I'll catch you later on
Down the line, cuz maybe I got
Better things on my mind.
The band's playin' a sad song...
"Bye bye baby."
