Social Distortion, Drug Train

It'll take you as high as the heavens It'll take you to the depths of hell It'll make you friends, it'll take your friends Who will never live to tell

[Chorus:] Drug train, drug train

The train's first stop is pleasure, The scond stop is fun But in a jail cell baby or a hospital bed You'll need hope 'cuz you ain't got none

[Chorus]

The train passes through the graveyard May the loved ones rest in peace For the last stop baby is a violent crash And hard times they never cease

[Chorus]
