

# Social Distortion, Let it be me

I've been in love, but now I'm waiting  
Don't ever want to worry about a thing  
I sit at home and I wonder  
Will I rise or will I go under  
Let it be me - if you're lonely  
Let it be me - your one and only  
Let it be me - to satisfy you  
Let it be me - if you're feelin' blue  
I've seen you around but you don't know me  
I've watched your life but can't always see  
I'll try and I'll try girl to love you  
And when we die you will have loved too  
Let it be me - if you're lonely  
Let it be me - your one and only  
Let it be me - to satisfy you  
Let it be me - if you're feelin' blue  
You know your friends talk bad about me  
Your folks say it's not supposed to be  
You know girl your life is going by fast  
Try to make it last  
Let it be me - if you're lonely  
Let it be me - your one and only  
Let it be me - to satisfy you  
Let it be me - if you're feelin' blue
