Social Distortion, Live Before You Die

When pressures up and the stress is high
And I wanna bid this world good bye
I'm gonna bury my frustrations
Grab some of life's satisfactions
Yeah I'm gonna live before I die

I try to find some peace of mind
When my life's treating me unkind
Paiin will be my motivation
I'm gonna use my imagination
Yeah I'm gonna live before I die

[Chorus:]
So close your eyes, and embrace your memories
Leave your troubles and your worries far behind
Stop contemplating and start celebrating
Yeah you gotta live before you die

I think of chances I didn't take
I try to learn from my mistakes, yeah
I'm tired of being pushed around now
Life ain't gonna drag me down now
Yeah, I'm gonna live before I die

[Chorus]
