

Social Distortion, Mainliner

Nothing she can do,
She's so confused something should be done,
But she'll refuse she's got a new fix,
To ease her pain she's got a new fix,
To control her brain
Oh, no no no mainliner,

Mainliner out of frustration,
She unwraps the foil takes out her spoon,
Starts to boil she used to be pretty,
To all her friends
But the hypodermic needle took her to the end
Oh, no no no mainliner, mainliner

She's boiling up,
Always in heat stick
It in again just to keep her beat

This time she'll try a little more
This time we found her on the floor
Oh, no no no mainliner, mainliner...
